

Our Solution for Contract Services

Deliver an outstanding customer experience that drives repeat business

Our solution for Contract Services provides the automated tools and real-time visibility you need to manage labor costs to budget, optimize worker performance, and better understand the cost of delivering service. In turn, you can bid more profitable business to clients and deliver the kind of service that keeps them coming back. With instant insight into worker time, attendance, and performance, you can boost productivity, minimize overtime, and make quick adjustments to meet customer agreements.

See your workforce clearly — in time to react

Full visibility into labor costs and performance helps you make profitable bids to clients without compromising service. Real-time alerts notify managers when workers are approaching overtime thresholds, so they can make staffing changes to maintain profitability.

Mobile tools empower managers to respond quickly to employee requests and schedule changes. If an employee is a no-show or calls in sick at the last minute, real-time information helps field managers find a replacement who is qualified, available, close to the job, and below the overtime threshold to fill the gap.

Instant access to planned leave and absences also helps ensure sufficient coverage to keep customers satisfied.

Geofencing lets workers who move across multiple locations punch in and out via GPS coordinates on a mobile device. Managers are notified of punches outside of defined work areas so they can make sure workers are where they should be.

Control costs in a competitive marketplace

Minimizing the costs of unplanned absenteeism, tardiness, overtime, and idle time is key to delivering more profitable service. Our solution for Contract Services helps you proactively manage labor to budgets by flagging and reducing unnecessary costs. And by simplifying deployment of best-fit, best-cost workers for each job, our solutions help improve profitability and customer service.

Key Benefits

- » **GET ACCURATE COSTING** for more profitable bids, satisfied customers, and repeat business
- » **HIRE QUALIFIED, RELIABLE WORKERS** quickly and pay them accurately for time worked
- » **REDUCE TIME TO INVOICE** and increase billing accuracy for improved cash flow
- » **DEPLOY BEST-FIT, BEST-COST WORKERS** for the job and identify replacement workers quickly
- » **MONITOR PERFORMANCE** of dispersed workers to meet service level agreements and protect razor-thin margins
- » **MINIMIZE COMPLIANCE RISK** with automated attestation and enforcement of work and pay rules
- » **GAIN REAL-TIME VISIBILITY** into your workforce — across all client locations — from a centralized solution

Control costs in a competitive marketplace

Minimizing the costs of unplanned absenteeism, tardiness, overtime, and idle time is key to delivering more profitable service. Our solution for Contract Services helps you proactively manage labor to budgets by flagging and reducing unnecessary costs. And by simplifying deployment of best-fit, best-cost workers for each job, our solutions help improve profitability and customer service.

Minimize compliance risk with accurate data

With a dispersed contract workforce that spends its days in various locations, it can be challenging to ensure workers are paid accurately for time worked. Our solution for Contract Services automates employee attestation, helping you monitor actual time worked as well as required meal and rest breaks. As a result, you're better able to manage compliance with labor laws, rules, and regulations that affect how you deploy your contract workers.

Increase your competitive advantage — and your profits

Our solution has helped contract services organizations across the globe gain visibility into their service labor costs and performance for better business outcomes. With our solution, your frontline managers and corporate decision makers have the tools and data they need to manage labor costs to budget, drive quality performance, and effectively deploy workers to meet customer expectations. What's more, our solutions help you understand the true cost of delivering services, so you can compete more profitably.
